

Federal Trade Commission

§ 303.6

the Act and regulations for any failure of compliance with the Act and regulations by reason of any statement or omission in such label, invoice, or other means of identification utilized in accordance with his direction: *Provided*, That nothing herein shall relieve the processor or finisher of any duty or liability to which he may be subject under the Act and regulations.

§ 303.3 Fibers present in amounts of less than 5 percent.

(a) Except as permitted in sections 4(b)(1) and 4(b)(2) of the Act, as amended, no fiber present in the amount of less than 5 percent of the total fiber weight shall be designated by its generic name or fiber trademark in disclosing the constituent fibers in required information, but shall be designated as "other fiber." When more than one of such fibers are present in a product, they shall be designated in the aggregate as "other fibers." Provided, however, that nothing in this section shall be construed as prohibiting the disclosure of any fiber present in a textile fiber product which has a clearly established and definite functional significance when present in the amount contained in such product, as for example:

96 percent Acetate
4 percent Spandex.

(b) In making such disclosure, all of the provisions of the Act and regulations in this part setting forth the manner and form of disclosure of fiber content information, including the provisions of §§ 303.17 and 303.41 of this part relating to the use of generic names and fiber trademarks, shall be applicable.

[63 FR 7518, Feb. 13, 1998]

§ 303.4 English language requirement.

All required information shall be set out in the English language. If the required information appears in a language other than English, it also shall appear in the English language. The provisions of this section shall not apply to advertisements in foreign language newspapers or periodicals, but such advertising shall in all other respects comply with the Act and regulations.

§ 303.5 Abbreviations, ditto marks, and asterisks prohibited.

(a) In disclosing required information, words or terms shall not be designated by ditto marks or appear in footnotes referred to by asterisks or other symbols in required information, and shall not be abbreviated except as permitted in § 303.33(e) of this part.

(b) Where the generic name of a textile fiber is required to appear in immediate conjunction with a fiber trademark in advertising, labeling, or invoicing, a disclosure of the generic name by means of a footnote, to which reference is made by use of an asterisk or other symbol placed next to the fiber trademark, shall not be sufficient in itself to constitute compliance with the Act and regulations.

[24 FR 4480, June 2, 1959, as amended at 65 FR 75156, Dec. 1, 2000]

§ 303.6 Generic names of fibers to be used.

(a) Except where another name is permitted under the Act and regulations, the respective generic names of all fibers present in the amount of 5 percentum or more of the total fiber weight of the textile fiber product shall be used when naming fibers in the required information; as for example: "cotton," "rayon," "silk," "linen," "nylon," etc.

(b) Where a textile fiber product contains the hair or fiber of a fur-bearing animal present in the amount 5 percentum or more of the total fiber weight of the product, the name of the animal producing such fiber may be used in setting forth the required information, provided the name of such animal is used in conjunction with the words "fiber," "hair," or "blend;" as for example:

80 percent Rabbit hair.
20 percent Nylon.

or
80 percent Silk.
20 percent Mink fiber.

(c) The term *fur fiber* may be used to describe the hair or fur fiber or mixtures thereof of any animal or animals other than the sheep, lamb, Angora goat, Cashmere goat, camel, alpaca, llama or vicuna where such hair or fur fiber or mixture is present in the

§ 303.7

amount of 5 per centum or more of the total fiber weight of the textile fiber product and no direct or indirect representations are made as to the animal or animals from which the fiber so designated was obtained; as for example:

60 percent Cotton.
40 percent Fur fiber.

or

50 percent Nylon.
30 percent Mink hair.
20 percent Fur fiber.

(d) Where textile fiber products subject to the Act contain (1) wool or (2) recycled wool in amounts of five per centum or more of the total fiber weight, such fibers shall be designated and disclosed as wool or recycled wool as the case may be.

[24 FR 4480, June 2, 1959, as amended at 45 FR 44263, July 1, 1980]

§ 303.7 Generic names and definitions for manufactured fibers.

Pursuant to the provisions of section 7(c) of the Act, the Commission hereby establishes the generic names for manufactured fibers, together with their respective definitions, set forth in this section, and the generic names for manufactured fibers, together with their respective definitions, set forth in International Organization for Standardization ISO 2076: 1999(E), "Textiles—Man-made fibres—Generic names." This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from the American National Standards Institute, 11 West 42nd St., 13th floor, New York, NY 10036. Copies may be inspected at the Federal Trade Commission, Room 130, 600 Pennsylvania Avenue, NW., Washington, DC 20580, or at the Office of the Federal Register, 800 North Capitol Street, NW., Suite 700, Washington, DC.

(a) *Acrylic*. A manufactured fiber in which the fiber-forming substance is any long chain synthetic polymer composed of at least 85 percent by weight of acrylonitrile units

16 CFR Ch. I (1-1-03 Edition)

(b) *Modacrylic*. A manufactured fiber in which the fiber-forming substance is any long chain synthetic polymer composed of less than 85 percent but at least 35 percent by weight of acrylonitrile units

except fibers qualifying under paragraph (j)(2) of this section and fibers qualifying under paragraph (q) of this section. (Sec. 7, 72 Stat. 1717; 15 U.S.C. section 70e)

(c) *Polyester*. A manufactured fiber in which the fiber-forming substance is any long chain synthetic polymer composed of at least 85% by weight of an ester of a substituted aromatic carboxylic acid, including but not restricted to substituted terephthalate units,

and para substituted hydroxy-benzoate units,

Where the fiber is formed by the interaction of two or more chemically distinct polymers (of which none exceeds 85% by weight), and contains ester groups as the dominant functional unit (at least 85% by weight of the total polymer content of the fiber), and which, if stretched at least 100%, durably and rapidly reverts substantially to its unstretched length when the tension is removed, the term *elasterell-p* may be used as a generic description of the fiber.

(d) *Rayon*—A manufactured fiber composed of regenerated cellulose, as well as manufactured fibers composed of regenerated cellulose in which substituents have replaced not more than 15% of the hydrogens of the hydroxyl groups. Where the fiber is
